

Strategic Partnership and joint calls between the EU and the Russian Federation in the 7th and 8th Framework Programmes (NANORUCER)

NANORUCER workshop
Moscow, 13 of January, 2011

PROGRAMME

09:30	10:00	Welcome and registration
		Opening
10:00	10:20	Dr. Manuel Hallen , Delegation of the European Union to Russia, Minister Counsellor Science and Technology Hans Hartmann Pedersen , European Commission – Research Directorate-General, Nano- and Converging S&T “Nano-Manufacturing”
10:30	12:00	Mapping the nanotechnology innovation system of Russia for preparing future Cooperation between the EU and Russia
		Dr. Thomas Reiss The NANORUCER project – An Overview. Fraunhofer Institute for Systems and Innovation Research, Head of Competence Center “Emerging Technologies”, NANORUCER Coordinator Dr. Nadezhda V. Gaponenko Sectoral Innovation System of the RF in NN: Trends and Challenges, ISS RAS, Head of Department, Russian team leader Dr. Sergey B. Mostinsky Russian Corporation RUSNANO: Responding to Globalization; Head of Department, Russian Corporation RUSNANO
12:00	12:20	Coffee break
12:20	14:00	Mapping the nanotechnology innovation system of Russia for preparing future Cooperation between the EU and Russia
		Anatoly A. Zaikin Nanocenters as a Background of Innovation Infrastructure Development, Russian Corporation RUSNANO, Senior Expert Prof. Valery V. Ryazanov Hybrid Structure Application in Superconducting Electronics and Spintronics, Institute of Solid State Physics RAS, Head of Department Prof. Vladimir D. Kulakovskiy Electron and Nuclear Spins in Semiconductor Quantum Dots (QDs) for Nanophotonic Devices, Institute of Solid State Physics (ISSP), Deputy Director Prof. Viktor I. Pancirniy Nanomaterials for Energy Sector, Bochvar All-Russian Scientific Research Institute of Inorganic Materials Prof. Sergey A. Gavrilov , Nanoelectronics Development in Zelenorgad Nanocluster, National Research University Moscow Institute of Electronic Technology, Vice Rector
14:00	15:00	Lunch
15:00	17:00	Development Cooperative Projects between the EU and the RF
		Dr. Thomas Reiss: Introduction – some first ideas from NANORUCER research Expert groups brainstorming Presentation and Discussion of possible fields and topics for collaborative projects (groups’ leaders) Summary and conclusions
17:15	18:15	Fourchette
